## PLANTS

**PRIMULA POLYANTHUS**—This ever popular, large flowered primrose blooms over a long period from early to late spring in a wide array of colors and shades. Included in this group are the yellow, orange, brilliant and tomato reds, crimson, darkest maroon, coppery tones and white.

Dozen.....\$2.75

**PASTEL POLYANTHUS**—Delicate tints that approximate pink, peach, apricot, salmon, ivory and orchid blends. Many two-toned. Outstanding both in color and size.

Dozen.....\$5.00.....6 for 2.75.....3 for 1.50

**BLUE POLYANTHUS**—Lovely shades from dark indigo blue to pale sky blue. Give an acid soil and more shade to preserve blue color.

Dozen.....\$5.00.....6 for 2.75.....3 for 1.50

**HOSE IN HOSE POLYANTHUS**—Very robust grower, yellow shades only—nice plants.

Each.....\$1.00

**PRIMULA ACAULIS**—An exceptionally large flowered strain, low growing, each flower born on a single stem, so numerous they almost cover the plant. This primrose starts blooming in late winter, continuing throughout the spring. Shades of red, yellow, cream, rose, plum and white.

Dozen.....\$2.75.....6 for \$1.50

Pink or Blue Acaulis—

Dozen.....\$5.00.....6 for 2.75.....3 for 1.50

## EUROPEAN ALPINE PRIMULAS

**PRIMULA AURICULA**—Endless beauty of color and form, this exquisite and romantic Primula from the Swiss and Austrian Alps will flourish indefinitely when given adequate drainage. The thick leathery, sage green leaves are often powdered with silver meal, making the plants attractive the year 'round. Blooms with and after the Polyanthus and often again in the fall. Mixed shades include yellow, tan, plum, purple, dark reds, rose, orchid and many other pastels.

Dozen.....\$3.50.....3 for \$1.00

Auriculas in shades of blue, pink, mauve, deep yellow or leather coat.

Each.....\$ .50

## SPRING AND SUMMER BLOOMING ASIATIC PRIMULAS

P. CASHMERIANA OR DENTICULATA—Very early blooming—compact flower heads on 12 to 15 inch stems. Shades of lavender, violet and purple.

Each.....\$ .35.....3 for \$1.00

P. CORTUSOIDES—Flowers soft to dark rose with delicate crinkled foliage. 10 in. stems. Late spring bloom, often blooming again in fall.

Each.....\$ .35.....3 for \$1.00

P. FLORENDÆ—Very fragrant yellow bell shaped florets, 2 to 3 feet. Summer blooming and moisture loving.

Each.....\$ .35.....3 for \$1.00

P. SIEBOLDII—Lovely large flowers on 8 to 10 in. stems, lush crinkled foliage, late spring bloom. White, lavender, rose and white and lavender two-toned.

Each.....\$ .50

P. CAPITATA MOOREANA—Highly fragrant heads of purple bell shaped florets, both flower heads and stems covered with silver powder. Likes a cool woodsy soil and if given adequate moisture will bloom from midsummer until frost in this locality.

Each.....\$ .35.....3 for \$1.00

P. ROSEA GRANDIFLORA—Brilliant carmine pink. 6 to 10 inches. Blooms early in spring almost before the leaves appear. Needs cool growing conditions and ample moisture during summer months.

Each.....\$ .50

## CANDELABRA TYPE

P. HELODOXA—Clear yellow flowers and bright evergreen foliage. 2 ft. Summer bloom. Likes moist situation but good drainage.

Each.....\$ .35.....3 for \$1.00

P. CANDELABRA HYBRIDS—Shades of yellow, orange, coppery orange and salmon. Silver stems 1 ft. Summer bloom. Stunning planted near a group of Capitata Mooreana.

Each.....\$ .35.....3 for \$1.00

P. PULVERULENTA—Bright cerise, buds and stems heavily silvered.

Each.....\$ .35.....3 for \$1.00

P. PULVERENTA—Bartley strain—beautiful pale pink, to deep rose shades. Silvered buds and stems 1 to 2 ft. Spring bloom.

Each.....\$ .50

P. JAPONICA—Deep red flowers, 1 to 2 ft.

Each.....\$ .35.....3 for \$1.00

P. JAPONICA ROSEA—Soft clear pink with red eye.

Each.....\$ .35.....3 for \$1.00

P. JAPONICA WHITE—Waxy white flowers.

Each.....\$ .35.....3 for \$1.00

P. JAPONICA CARMINATA—Brilliant carmine.

Each.....\$ .35.....3 for \$1.00

P. COCKBURNIANA—Showy coppery red—one of the smallest candelabra—easy.

Each.....\$ .35.....3 for \$1.00

## PRIMULA JULIAE AND JULIANA HYBRIDS

P. JULIAE—The original species from the Caucasus. Dwarf mats of glossy foliage covered with tiny claret—red flowers.

Each.....\$ .50

ALBA—Fine white flowers, sometimes tinged with pink as flowers fade. Acaulis form.....\$1.00

ROSEA—Lovely pink blossoms born well above the compact foliage, very early and one of the best. Acaulis form.....\$1.00

ROBERTA—Soft green leaves—large lilac colored blossoms with yellow eye. Polyanthus type.

Each.....\$ .50

DOROTHY—Tiny primrose yellow Polyanthus. Plants are compact and multiply rapidly.

Each.....\$1.00

Per packet .....\$1.00

## POSTAGE AND SHIPPING TERMS

All prices include postage to points west of the Mississippi River. POINTS EAST PLEASE add \$.25 TO QUOTED PRICES.

Plants will be shipped parcel post unless otherwise requested.

Cash, money order or check is equally acceptable.

It is our policy to ship only large, healthy, field grown plants and to fill orders specifying colors and shades to the best of our ability.

Specific shades and colors of Acaulis Polyanthus and Auriculas can be selected during the spring blooming season only.

Primroses and violets may be shipped with safety from early spring to early fall.
